The budget process maps a strategic workplan while assigning dollar values for services provided. It is an opportunity to take stock of the community, and the role Eau Claire County government assumes in defining the community. The budget is a planning tool for financial and operational resources; and reflects the County’s determination to allocate resources responsibly. It was prepared with the goal of preserving services to the residents, visitors, and businesses of the County; balancing priorities and compromise between competing needs for limited funding; and being responsive to our citizens.
